Englewood Farmers Market hosts *Eat with the Seasons* cooking demonstration January 21

Demonstration to feature renowned chef David Bearl

(ENGLEWOOD, Fla. – January 12, 2016) – The Englewood Farmers Market is partnering with the UF/IFAS Extension Family Nutrition Program (FNP), the SNAP-Ed implementing agency in Florida, and Florida Organic Growers' Fresh Access Bucks (FAB) program to conduct a special cooking demonstration from 9 a.m. to 2 p.m. on Thursday, January 21.

The kick-off demonstration of 2016, "*Eat with the Seasons*," features UF/IFAS Chef David Bearl, American Culinary Federation certified chef for more than 30 years. He will demonstrate seasonal, healthy and easy to prepare market to table recipes using Florida grown produce right from the market.

Englewood Farmers Market is located in historic downtown Englewood at 300 Dearborn Street and takes place every Thursday from first week of October through the end of May.

Englewood Farmers Market Manager Lee Perron shared, "We're extremely excited to have a culinary star like David Bearl cooking live at the Englewood Farmers Market on January 21st! This event with Chef Bearl will be the launch pad for monthly market to table cooking demos with a variety of local chefs on a going forward basis."

In 2016, 24 FAB markets will partner with FNP for *Eat with the Seasons* cooking demonstrations that enable participants to taste new items and learn new, healthy cooking methods that feature seasonal, Florida grown produce, and easy and affordable recipes.

The Fresh Access Bucks (FAB) program is a statewide incentive designed to encourage Supplemental Nutrition Assistance Program (SNAP, formerly known as food stamps) recipients to redeem their benefits at farmers markets to purchase fresh, healthy foods directly from Florida farmers. At participating markets, Florida Organic Growers matches what a SNAP cardholder spends with FREE Fresh Access Bucks - up to \$20, every market day. Customers can use them right away or later on to buy Florida grown fruits and vegetables.

For example, a SNAP shopper who spends \$10 of their SNAP benefits at a participating market receives an additional \$10 to purchase fresh, local produce. Currently there are 28 farmers markets and 2 Community Supported Agriculture programs (CSAs) participating in Fresh Access Bucks throughout the state. In addition to increasing the affordability and accessibility of healthy foods, nutrition education efforts at FAB markets is integral to increasing the purchase and consumption of fresh, local produce.

FAB is a program of Florida Organic Growers, a nonprofit that supports and promotes organic and sustainable agriculture through education, outreach and advocacy. Funded by the USDA Supplemental Nutrition Assistance Program (SNAP), FNP teaches low-income Floridians how to eat healthy and stay active on a budget.
